MORE INFORMATION ON THE PRODUCT

CONSTRUCTION

- The 90 mm-wide, Z-shaped slats of the Z90 exterior blinds ensure high stability and effective shading.
- The structure includes metal elliptical guide pins that increase wind resistance.
- The 56 × 58 mm galvanized steel upper profile can be varnished in RAL colours.

FEATURES

- Dimensions for motor operation: width: 600–5,000 mm, height: 500–5,000 mm, maximum area: 20 m².
- Dimensions for manual operation: width: 400–5,000 mm, height: 500–5,000 mm, maximum area: 9 m².
- Both methods have a wind resistance of up to 88 km/h.

COLOURS

- Blind slats available in **22 colours**.
- Accessories available in any RAL colour.

CONTROL

- Manual operation using a crank and maintenance-free bevel gearbox.
- Motor operation using a switch or remote control.
- Possible to connect to a smart home system.
